THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI M.P. VEERENDRA KUMAR) : (a) Reserve Bank of India (RBI) have reported that the total deposits of Bank of Baroda as on March 31, 1996 were Rs. 28370 crore and total advances were Rs. 16013 crore.

(b) The capital to risk weighted assets ratio (CRAR) of Bank of Baroda for the year 1995-96 was 11.2% as against the minimum CRAR of 8 per cent prescribed by RBI.

(c) Reserve Bank of India (RBI) has further reported that Bank of Baroda's need for capital has arisen as the bank expects substantial growth in business in the coming years and consequently the risk weighted assets are expected to be Rs. 27600 crore by 1999. The increase in Tier-I capital through ploughback of profit alone is not sufficient to enable the bank to maintain capital adequacy at the present levels. There will be considerable reduction in Tier-II capital due to reduction in the amounts of subordinated debt and revaluation reserves. Further, bank's overseas assets are subject to exchange fluctuations when translated into Indian currency. Hence the bank needs the additional capital to maintain in the CPAR.
